

On my way to work every day and on my way to church wed night,sunday morning i am listening to klove, i have also chosen to listen to the statio on my comp.at my work place,this is a very large stress reliver and witnessing tool for me,i get alot of pleasure and joy and strength from the music and commentaries i listen to,please there are alot more serious things that should be taken away we could start with filthy programs and talk radio,you wont hear of someone committing suicide,listening to christian music,but you may hear about some one changeing their mind about it,God bless..Tammy Stetson
